✓ 15-DAY FREE TRIAL

**One platform.
Every clinic need.**

From front-desk to follow-up — every workflow your vet clinic runs is built into one clean dashboard.

► **THE PROBLEM**

Running a vet clinic in India is **harder than it should be.**

Most "hospital software" was never built for vets. So clinics still juggle paper, WhatsApp, Excel, and memory — and patients pay the price.

► **Paper registers get lost.**

Last year's vaccination record is buried in a stack. Finding a pet's history takes 15 minutes every time.

► **Vaccination dates slip.**

The owner forgets. You forget. The pet suffers. Trust in your clinic erodes silently.

► **No-shows and late arrivals.**

There's no time to make reminder calls. Your daily schedule keeps getting disrupted.

► **Stock-out surprises.**

The vaccine you need has just run out. When you ordered it last, no one can remember.

► **GST filing headaches.**

Every Sunday is spent reconciling bills with your CA. Mistakes happen, notices follow.

► **Reports? Forget it.**

How much did you earn this month? Top services? Pending payments? You simply don't know.

Adanas PetCare ERP is built for vets — not borrowed from human hospitals.

► THE SOLUTION

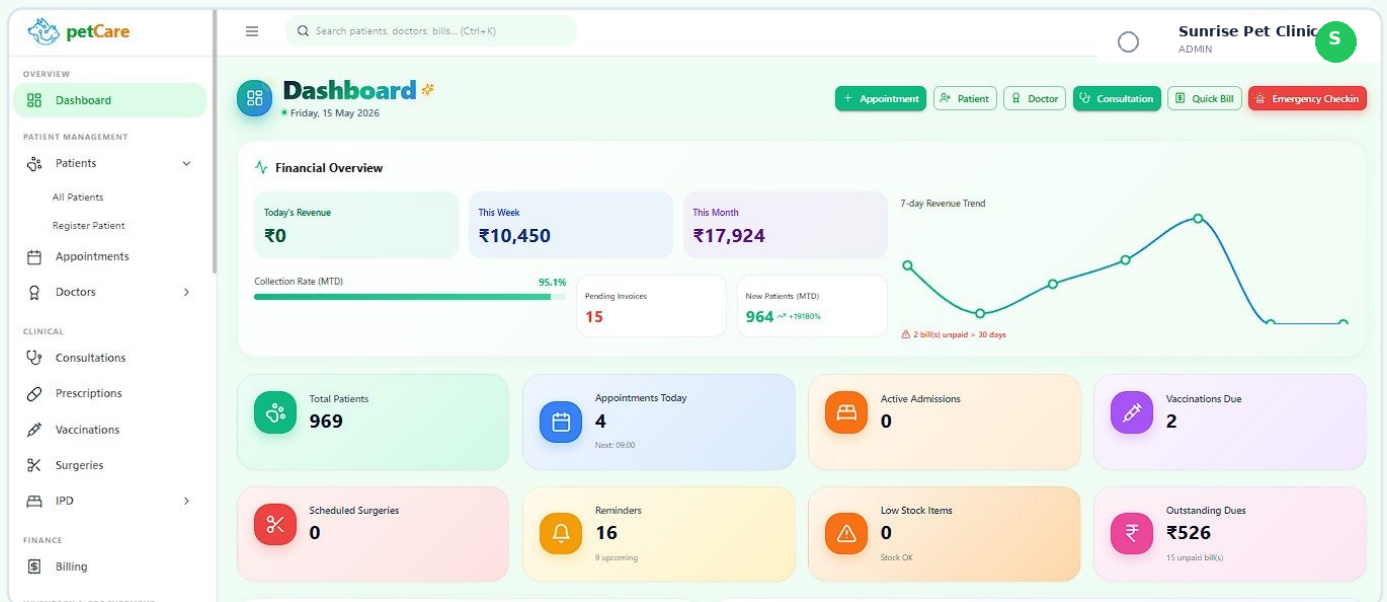

One dashboard. Your whole clinic. Total control.

Adanas PetCare ERP brings every part of your clinic into one screen — appointments, patient records, billing, vaccinations, inventory, reports. Built specifically for veterinary clinics in India, with GST, SMS automation, and Hindi-English support out of the box.

 **Cloud-based**

 **SMS Native**

 **GST-Ready**

Real-time financial overview, appointments, vaccinations, stock alerts — all in one dashboard.

► WHAT'S INSIDE

Everything in one place. **Built for Indian vets.**

Every workflow a modern veterinary clinic needs — in one cloud platform.

Patient & Owner Records

Every pet's complete history — breed, age, vaccinations, allergies — accessible in one click.

Smart Appointments & Queue

Calendar view, token queue, doctor schedules. Manage walk-ins and bookings from one screen.

EMR & Consultations

Digital prescriptions, clinical notes, diagnosis — paper-free, audit-ready.

Vaccination Tracking

Automated reminders to pet owners via SMS. No vaccination ever slips through.

GST Billing & Invoicing

GST-compliant bills, GSTR reports, receipts — ready for your Chartered Accountant.

Pharmacy & Inventory

Stock alerts, expiry tracking, purchase orders. Never run out of essential supplies again.

Lab & Diagnostics

Test results, reference ranges, attached reports. Lab workflows streamlined.

Reports & Analytics

Revenue, top services, pending payments, doctor productivity — har metric live.

► **GETTING STARTED**

3 steps. 15 minutes. **You're ready.**

No installation. No IT team. No long onboarding. Sign up and start treating today.

1

Sign Up Free

Visit adanastech.com. 15-day free trial, no credit card required. Just your email and phone number.

2

Add Your Clinic

Doctors, services, prices — set up in 10 minutes. We'll guide you step-by-step.

3

Start Treating

Register your first patient. Book your first appointment. You're live.

Free trial for 15 days. No credit card. No installation needed.

► FEATURE SPOTLIGHT · 01

Appointments and queue — **auto-managed.**

A booking comes in on the phone, you scribble it in the register, then forget about it — that's the old way. With Adanas PetCare, appointments sync across one screen, the calendar, and each doctor's schedule.

When a walk-in arrives, a token is generated automatically. The doctor knows exactly who's next. Owners receive an SMS reminder two hours before their visit. Result: fewer no-shows, more on-time arrivals.

► **Net result: 30-40% fewer no-shows. Happier owners. A calmer team.**

The screenshot displays the 'Appointments' section for Monday, May 18, 2026. At the top right is a '+ New Appointment' button. Below this are four summary cards: 'Today's Total' (0), 'Completed' (0), 'Pending' (0), and 'Cancelled' (0). The main area is divided into two panels. The left panel, 'Today's Queue', shows '0 appointments' and a message 'No appointments found' with a sub-note 'No appointments scheduled for today'. The right panel, 'Doctor Schedule', includes a 'Select Doctor' dropdown, a date selector for '18-05-2026', and a message 'Select a doctor to view their schedule'. At the bottom, the 'All Appointments' section features a search bar, filters for Date, Status, Type, and Vet, and an 'Export' button. Below these is a table with columns: DATE / TIME, PATIENT, OWNER, VET, TYPE, STATUS, and DURATION.

Today's queue, doctor schedule, all appointments — one unified view.

► **FEATURE SPOTLIGHT · 02**

Reminders to pet owners — automated.

A vaccination is due — an SMS goes out. An appointment is tomorrow — an SMS goes out. A health check-up is overdue — an email goes out. You don't have to do anything. The system sends it on its own.

And when you need to run a campaign — a festival greeting, a new service announcement, a deworming drive — you can message 500 owners with one click. Personalised. Trackable.

Build campaigns in 3 steps · Track every reminder across email and SMS.

⚡ SMS automation available on Pro and Enterprise plans

► **MADE FOR INDIA**

Built for Indian vets. Built for Indian rules.

Built in Lucknow. Tested across India. Local support, local taxes, local languages — by design.

IN

Made in India

Lucknow-based team, Indian support hours, Indian price points.

GST-ready

GSTR reports, GST invoices, HSN/SAC handling — built-in.

SMS

SMS automation

Appointment reminders, vaccination alerts, campaigns — delivered automatically.

Secure & cloud-based

Daily backups, role-based access, no data loss. Sleep peacefully.

अ/А

Hindi + English

Use whichever language your team is comfortable with. Both work.

Multi-clinic ready

Single clinic or growing chain — same software scales with you.

► WHO IT'S FOR

From solo vet to multi-branch chain — for everyone.

Pick the plan that fits today. Upgrade when you grow — same data, same workflow, no migration headache.

Solo Vet / Single Clinic

"I run my clinic on my own. I don't have a receptionist."

Patient records, appointments, basic billing — manage it all without extra help.

→ Free or Basic

Growing Clinic (2-5 doctors)

"We have 3 doctors and a busy OPD. The paperwork is becoming unmanageable."

Full clinic + lab + SMS reminders + GSTR reports + automation.

→ Pro plan

Multi-Branch / Hospital

"We have 3 branches, plus IPD and an operating theatre."

Multi-branch, IPD, OT, pharmacy POS, accounting, 5,000 SMS/month.

→ Enterprise

Plans grow with you. Start on Basic today, move to Enterprise tomorrow — same data, same workflow, no relearning.

► LET'S TALK

Book a demo. 30 minutes. Free.

We'll walk you through the software using your clinic's actual workflow. Bring your data — we'll help you migrate. No commitment. No card. Just 30 minutes.
